

## Career Brochure

You will create a brochure on one of the agriculture careers we discussed in class. You will use black construction paper folded into thirds (tri-fold). You will include a description of the career, the education and skills needed to perform the job, the expected average starting salary (annual income) for the career. The brochure must be colorful, neat, and informative. Include pictures of things associated with that career.

You may use the computer to create your brochure, but it is not required. Publisher can be useful; however, very good brochures have been turned in that have been done by hand.

Your brochure is due on Friday, August 26, 2011 when you come to class. You should bring this rubric with you with your name on the top for grading purposes. You will be expected to stand up and tell the class about the career you chose. This assignment is worth 75 points of homework credit.

### Grading Rubric

Neatness of brochure.....	____/10
Accuracy of information.....	____/15
Completeness	
Description.....	____/5
Education.....	____/5
Salary/Income.....	____/5
Creativity.....	____/10
Layout.....	____/10
Presentation.....	____/15

Total: \_\_\_\_\_/75
