

Beginning of Year Extra Credit List

I allow 20 points of extra credit each semester. For this opportunity, I will allow students to earn a maximum of 10 points per class.

These items are all miscellaneous supplies that we use throughout the year for various projects like making biodiesel, giving ag history presentations, creating ag science study games, and much more!

Students should bring these items to school within the first 7 days of school in a paper/plastic bag with their names written on the bag. I will post the extra credit to their first quarter grade.

5 points each

- Pack of 3 poster boards – any color(s)
- Pair of standard size scissors
- Calculator with square root button
- Large pack of construction paper
- Large bottle of vegetable oil (ingredient: soybean oil)
- 2 lb container corn meal
