

Greenhouse Design

Include on your design:

1. Side view, front view, top view (floor plan)
2. Scale
3. North arrow
4. benches, isles, doors, work area/head house
5. All dimensions
6. Written explanation of why you chose this greenhouse style, benching system, and sizes.
7. Answer these questions in the write up:
 - What will the greenhouse be used for?
 - What type of crop will be produced?
 - What light and height requirements does this crop have?
 - Where will the greenhouse be located?
 - What is your budget?
 - Is the set up practical for your needs?
8. Make sure the drawing is in pencil, neat, precise, and all parts are drawn to the indicated scale.
