

History of Agriculture Project

The class will be broken into __ groups. Each group will be assigned a specific period of time. It is your assignment for each group to create a poster highlighting the top 5 advances in agriculture during that time. Your group will then have to present your poster to the class with a 5 minute explanation of how agriculture changed in your time period. Your group will need to research (books and internet) about your time period. You can print off pictures, cut out of magazines, draw and color, etc to create your poster. Posters will be on one standard piece of poster board.

Projects will be graded on creativity, completeness, accuracy, and the quality of presentation. In addition, each member will grade his/her teammates on how well they contributed to the project. These will be averaged together with the group grade.

This assignment is worth 100 homework points. The posters will be due on _____, September 1, 20____.

Grading Rubric

Neatness of poster.....____/15

Accuracy of information.....____/20

Completeness (all 5 advances).....____/35

Creativity.....____/15

Presentation.....____/15

Total:____/100
