

## Leaf Collection Assignment

Your assignment is to collect 20 leaves from the list below. You must press the leaves in a magazine or book, then attach them to a piece of paper labeled with the tree name and your name. Many trees must have a **twig and bud** attached to correctly identify them, therefore, all specimens must have a piece of the twig attached. Each leaf will be worth 5 points for a total of 100 points for this assignment. Your completed collections will be due on Sept 16, 2011. It would be wise to bring in your collections prior to that date to confirm that all of your specimens are accurate and count, that way if you need to you can collect more specimens before the due date.

American Basswood  
American Hophorn Beam  
Ash, Green  
Ash, White  
Aspen, Quaking  
Baldcypress  
Birch, Paper; Birch, White
