

## Lesson Plans for 1/3 through 1/13

The following are the lesson plans for Agriculture Orientation, Environmental Science, Agriculture Science, and Horticulture. Additional specific class comments follow.

Tuesday: Begin class with Why can't I remember? PPT. Then pass out study guides for final exams. Students will write down daily goals for completing study guides and turn in by end of class.

Wednesday - Friday: Work on study guides. Students will check in with teacher at end of each class to sign off on daily goals.

Monday & Tuesday: Break students into groups of 3-4. Provide paper and markers. Students are to draw pictures that represent information on their study guides. Pictures should contain captions that outline the pertinent information.

Wednesday: Field any last questions for finals. Wrap up picture work from Tuesday. Outline exam expectations and policies.

Thursday & Friday: Final Exams

\*\*Agriculture Orientation: Tuesday & Wednesday – During individual work conference with each student for a couple of minutes regarding their SAEP that should begin on Jan 1, 2012. Assign individual tasks according to project.

\*\*Agriculture Science: Wednesday & Thursday – During individual work students will turn in their digestive system models on Wednesday. Conference with each student on model and the grade it earns.

## Welding

Tuesday – Friday: Clean out welding shop and set up new welding machines.

Monday – Wednesday: Inventory welding equipment and welding shop.

## AGB 135

Tuesday – Monday: Outline Chapters 24-27 in consumer education book. Go to computer lab and create pamphlet on consumer education for young adults. **Binders are due Friday!**

Tuesday: Turn in pamphlet. Critique pamphlet and fill out peer review.

Wednesday: Complete evaluation for dual credit class. Receive final grade.
